**Glimmer's Not Glitter**

Revlon's **GLIMMER GLOSS NAIL POLISH** (\$4.79, drugstores) goes on smoothly and easily. One coat does the trick, and it dries in less than 2 minutes.

The glimmer is subtle, far from the obnoxious glitter beloved by tweens; plus, this glitter does not leave traces on everything you touch. It reflects light and draws attention to your fingertips without being

loud. The paler among us should avoid Apricot Freeze, however. The shade gave this fair-skinned tester's nails an unappealing "just ate Cheetos" look. CAROLYN STEEVES
